Please note the following

1. To ensure the correct attribution of payments, the registration code must be entered in field no 3a in the case of a tax declaration and in field nos 3a and 3b in the case of a tax correction.

It is made up as follows:

- Block 2: The tax declarations / tax corrections for the respective calendar month must be numbered consecutively and separately from one another for each aviation enterprise. The consecutive number must consist of four digits.
- Block 3: The aviation tax number for the aviation enterprise must be entered here. The number must be entered even if a representative in tax matters pursuant to § 8 LuftVStG has been appointed to handle the tax matters.
- Block 4: Month for which the tax declaration is being filed (month of accrual). It must be stated in two digits (e.g. January = 01).
- Block 5: Calendar year for which the tax declaration is being filed (month of accrual). It must be stated in four digits (e.g. 2012).
- Block 6: The office identity number of the responsible main customs office must be entered here.

Payments must be made by cashless remittance to the payment office of the main customs office, stating the registration code ("LVA" in the case of tax declarations or "LVB" in the case of tax corrections). The respective bank details can be found on the Internet at www.zoll.de under "Dienststellensuche" (Department search).

2. If a tax declaration is filed under § 12 (3) LuftVStG and the aviation tax number is not known, no entries must be made under no 3a or 3b (Registration code). The amount must be paid by cashless remittance to the payment office of the responsible main customs office, stating the type of tax ("LVA" in the case of tax declarations or "LVB" in the case of tax correction), the month of accrual and the year of accrual.
3. Aviation enterprises which have a bank account in the Single Euro Payments Area (SEPA) and wish to make use of the SEPA B2B direct debit procedure for payments under this tax declaration must state, under No. 4, the mandate reference number issued by the responsible main customs office. If the number is not stated, the amount will not be direct-debited from the account.
4. In the case of tax relief in countries which are members of the Single Euro Payments Area (SEPA), the IBAN code must be stated in § 5. In the case of cross-border SEPA payments outside the European Economic Area (EEA) (e.g. Switzerland, Monaco), the BIC code must also be stated.
5. The number of passengers carried must be entered under No. 6 in column 1. The relevant amounts must be computed by the declarant and entered in column 3.
6. The tax rate stated under No. 6 in column 2, line 2, for island flights is a reduced rate of 20% of the national tax rate pursuant to the decision of the European Commission of 19 December 2012 [C (2012) 9451] or 6 February 2020 [C (2020) 731].
7. The legal transactions specified in § 5 LuftVStG are tax-exempt; they must be stated under No. 7. A tax declaration must be filed even if all departures were on the strength of legal transactions which are tax-exempt under § 5 LuftVStG.
8. A tax assessment notice will be issued only if the tax actually payable differs from your computation. If the tax correction will mean a lower tax payment by you, please enter your bank account details under No. 5.
9. A representative in tax matters owes the aviation tax as joint and several debtor alongside the aviation enterprise itself (§ 44 German Tax Code). As a rule, the tax will be claimed initially from the representative in tax matters if it is not paid when due or if a tax assessment notice is issued.

Note pursuant to § 123 German Tax Code

If declarants pursuant to § 7 (1) second sentence no 2 LuftVStG who are domiciled in a third country and file a tax declaration pursuant to § 12 (3) LuftVStG fail to name a person who is authorised to accept service of documents on their behalf, any document addressed to them will be deemed to have been received one month after mailing or, in the case of documents sent through electronic channels, on the third day after being sent. This shall not apply if it is established that the document or electronic document has not reached the addressee at all or has only done so at a later date. If direct service by registered letter with advice of delivery pursuant to § 9 (1) no 1 VwZG [German Act on Service in Administrative Procedures] is not possible in the third country concerned and if no other form of service is available or offers no prospect of success, service of the document to be notified shall be effected by public notice pursuant to § 10 (1) first sentence 1 no 3 VwZG. This is done by publishing a notification of public service on the website www.zoll.de. Pursuant to section 10(2) sentence 6 VwZG, the document in question is deemed to have been served if two weeks have elapsed since the day on which the notification was published.

Note on Data Protection within the Scope of the GDPR

The data required to be given in the tax declaration is collected on the strength of §§ 149 et seq. German Tax Code and § 12 LuftVStG. Information surrounding data protection – in particular the obligation to provide information as regards the collection of personal data according to Articles 13 and 14 of the General Data Protection Regulation – will be made available to you on the customs authority's website at www.zoll.de (in the "Datenschutz" [Data Protection] § under the heading "Datenschutzerklärung für Verwaltungsverfahren des Zolls" [Privacy Policy for Administrative Customs Procedures]) or, where necessary, in every customs office.

Information pursuant to § 6 German EU Tax Recovery Act ("EU-Beitreibungsgesetz")

In the case of refund or repayment of taxes to a person whose place of business or place of residence is in another Member State, the other Member State shall be informed pursuant to § 6 (2) German EU Recovery Act. This can cause delay in payment of the tax relief.
